October 28th & 29th, 2019
Seattle Marriott Waterfront Hotel
Seattle, Washington

2019 Chance to Parent International Conference

We are excited to announce that registration for Turning the Tide will open June 17, 2019. At this conference, you will learn about changing the way we serve and even view families headed by parents with intellectual disabilities.

Presentations about new and innovative practice, policy and research taking place at local, state, national and international levels will 'turn the tide' toward a more fair and humane service system that allows equal opportunity for families headed by parents with intellectual disabilities to be successful.

Plenary sessions by legal professionals, service providers, parents and others will highlight inclusive and interdisciplinary practices to create positive outcomes for families. The application of the ADA in relation to child welfare cases will be shared and knowledge gained will apply across all disabilities.

A parent panel presentation, breakout sessions, keynote presentations, and a coalition building workshop will enable participants to share knowledge and network among a broad scope of stakeholders.
