

Dreaming Beyond High School:

**Supporting Students with Intellectual Disability and Their Families to Navigate
Inclusive Postsecondary Education**

2026 Chance to Parent Conference
Phoenix, Arizona

Lyndsey Nunes, Ph.D., MPH

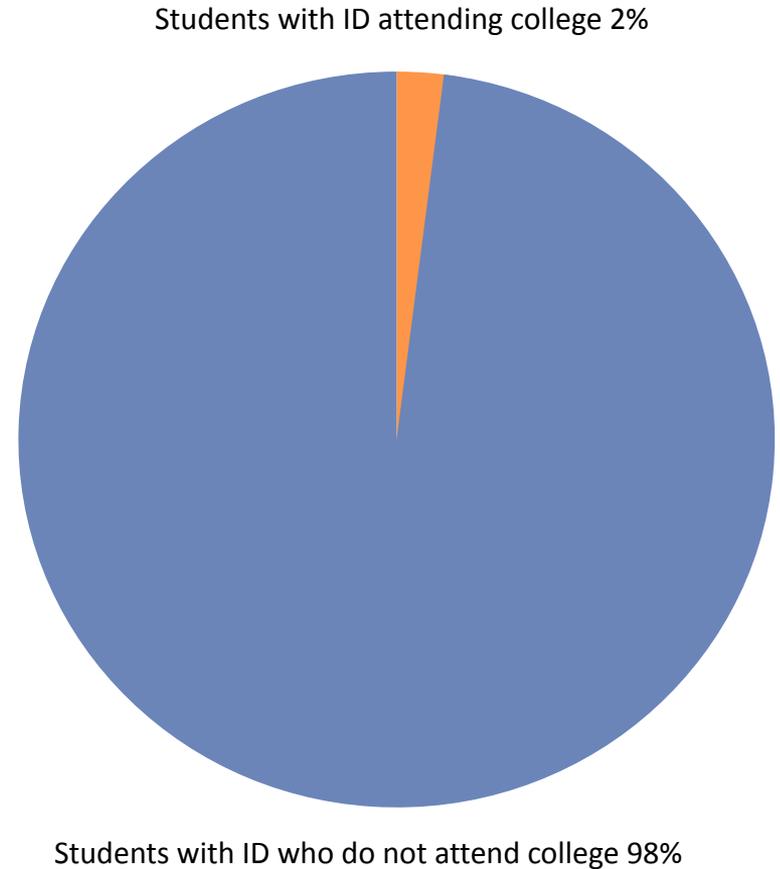

Sarah Lamb, M.Ed

WHAT COMES AFTER HIGH SCHOOL FOR
STUDENTS WITH
INTELLECTUAL AND DEVELOPMENTAL
DISABILITY (IDD)?

In 2022...

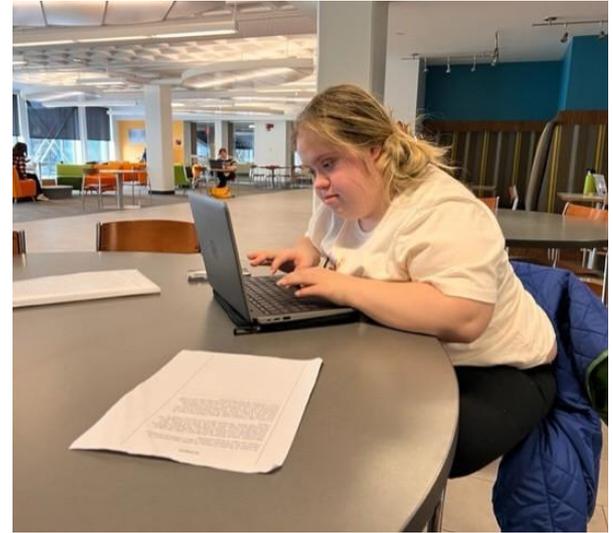

- There were more than 420,000 school age students with ID in the United States
- Fewer than 2% are likely to attend college after high school

(National Core Indicators, 2022)

For the **98%** of adults with ID who don't go to college - *the current reality*

- Only 15% have paid employment in the community¹
- 42% attend a day program or sheltered workshop¹
- 44% report they often or sometimes feel lonely¹
- 29.3% live below the poverty line²

1. National Core Indicators, 2022

2. Winsor et al., 2022

For the 2% who attend postsecondary education, the outcomes are promising...

- 59% find competitive, integrated employment 1 year after exit³
- 51% earned higher wages than those who did not access postsecondary education⁴
- 87% of students were enrolled in a credential program^{3*}
- 100% of programs provided peer mentor support to students^{3*}

3. Grigal et al., 2022,

4. Smith et al., 2018

*based on TPSID model demonstration sites, not representative of all programs in the US

Expectations

- Youth with disabilities are significantly less likely to expect to obtain postsecondary education than youth without disabilities (76% vs. 94%)
 - 50 percent of youth with intellectual disability
 - 60 percent of youth with multiple disabilities
- Parents of youth with disabilities have lower expectations for PSE for their children than parents of youth without disabilities (61% vs. 90%)
 - Across all disability groups
 - Lowest expectations for youth with intellectual disability (32%)

(NLTS 2012 - Lipscomb et al., 2017)

WHAT IS IPSE?

Why Accreditation Matters for Inclusive Higher Education

Inclusive Higher Ed Program Accreditation:

Validates and strengthens program quality

Provides a comparative measure for informed decision-making

Builds confidence in policies, procedures, and student supports

Promotes continuous quality improvement

Why IHEAC Was Created	Leadership & Early Impact	Pilot Sites
 <ul style="list-style-type: none"> ✓ Independent nonprofit (501(c)(3)) accrediting agency ✓ Advances standards-based quality programming ✓ Determines the accreditation status of programs 	<ul style="list-style-type: none"> ✓ Founded by national leaders in inclusive higher education and parent advocates ✓ Five programs completed the pilot site process: 	<p><u>Accredited Programs</u></p> <p>Virginia Commonwealth University ACE-IT in College</p> <p>University of Colorado Colorado Springs Office of Inclusive Services</p> <p>University of Alabama CrossingPoints Tier 3 Program</p> <p>Western Carolina University UP Program</p> <p><u>Awarded Candidacy Status</u></p> <p>University of South Florida U Matter Program</p>

Student Experience

- Enrolling in college courses for credit or audit
- Internships/work study
- Paid jobs (on/off campus)
- Campus Life/Organizations
- Learning to live in(ter)dependently

Academics

- Students may enroll in college courses for credit or audit.
- If auditing, modifications are allowed.
- Tutoring services are made available.
- Students may have specialized classes just for students in the program.

Courses

- Align with long-term employment goals
- Person Centered Planning
- Advising w/WIPSE staff
- 1-2 courses per semester (credit or audit)
- Accommodations/Modifications (if taken for credit only WSU approved accommodations allowed, no modifications)
- Ed Coach support in and out of class
- Course restrictions: pre-reqs, major only, etc.
- Follow college schedule (attend during February/April vacations)
- Program provides books and materials
- Follow campus *Student Code of Conduct* in and out of class

Community on Campus

- Social support from peer mentors
- Participating in campus organizations
- Student government
- Greek life
- Intramural Sports
- Developing independence on campus

Housing

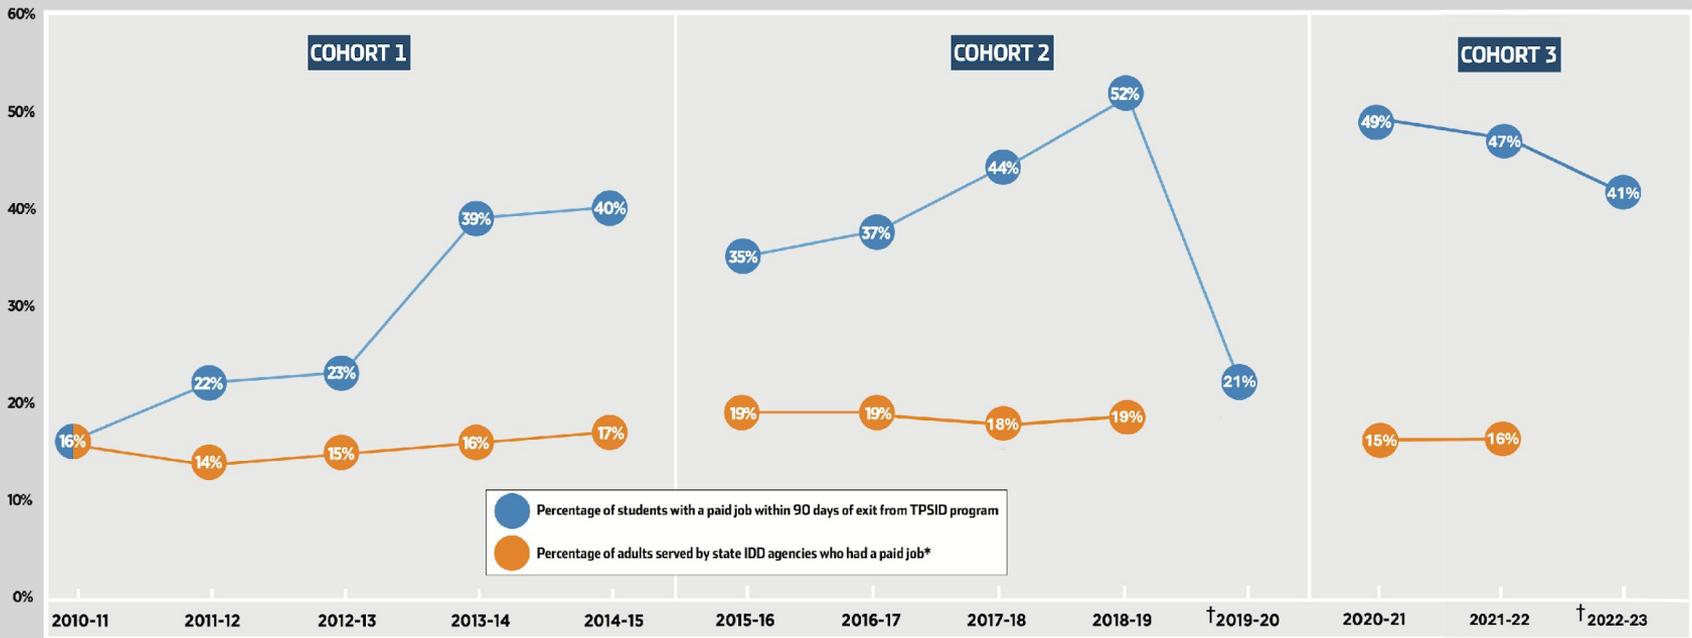

- Residence Halls/On-Campus Housing
 - Sometimes with another student in the program
 - Sometimes with a student outside of the program
 - Supports based on the needs of students
 - Some expectation for independent skills is typical
- Off-Campus Housing
 - A house or apartment complex with other students in the program

Employment

- Career development activities
- Internships/work study
- Paid jobs on and off campus
- Support to find paid work after graduation

PAID EMPLOYMENT AT EXIT

*National Core Indicators † Data not collected or available yet

Changing Expectations. Increasing Opportunities.

Why include students with ID in college?

- Broader array of learning opportunities
- Career-related topics
- Supports the growth of academic skills
- Engagement with college peers
- Helps instructors build capacity and responsiveness to all students
- Exposes peers to diverse students
- It's where the college students are

So, who gets to go to college?

Who is the *ideal* college candidate with a disability?

- Academically prepared
- Strong self advocate
- Clear understanding of accommodations needs
- Financially secure
- Clear career goals
- Strong family support system

Who is the *real* college student?

- Not academically prepared
 - four in 10 high school graduates are required to take remedial courses when they start college.
 - 29% of students at 4-year schools
 - 41% of students at 2-year schools (Ross et al. NCES, August 2012)
- Has financial need
 - Most common reason for leaving college
 - Cost
 - Males (40%); Females (23%)
- Vague or no career goals

Who is the *real* college student?

- Lack self advocacy skills/self-knowledge
- Wanting to establish an identity without disability
- Lack of understanding of accommodation
 - Needs
 - Availability
 - Process
- Fear of stigma

(Lightner et al., 2012; Getzel & Thoma, 2008; Denhart, 2008; Salzer et al., 2008)

LET'S TAKE A CLOSER LOOK

A photograph of a busy library or study hall. In the foreground, a woman in a blue sweater and glasses sits at a table, looking towards a man in a grey t-shirt who is looking down at a laptop. To the right, a woman in a blue and white striped shirt is also seated at the table, looking towards the man. In the background, other students are visible, including a woman in a pink shirt standing and another woman in a blue shirt standing and talking to a student with long blonde hair. The scene is brightly lit with overhead lights. A semi-transparent blue circle is overlaid on the image, containing the text.

Massachusetts Inclusive Higher Education

Massachusetts Inclusive Postsecondary Education (MAIPSE)

The MAIPSE initiative funds public institutes of higher education that wish to initiate a MAIPSE program that is designed to offer inclusive college options for students identified as having an intellectual disability, autism, or developmental disability.

MAIPSE Components

- Inclusive academics
- Inclusive college life
- Person-centered planning
- Employment & workforce development
- Coordinator & Employment Specialist
- Possibly Ed Coaches
- Partnership Leadership Team
- Family engagement
- Campus buy-in
- Sustainability and scalability

Organized statewide stakeholder group to review status of transition services and innovative practices. Results in legislative advocacy for inclusive dual enrollment opportunities for transition-aged students with high intensity needs.

8 public IHEs
20 partner school districts
Supported 31 eligible transition-aged students with intellectual disability

Institute for Community Inclusion receives federal funding to determine what makes up critical components of college-based transition services. Project staff collaborate with partners from HCC, WSU, and BSU to discuss and revise implementation.

LANDMARK LEGISLATION

MAICEI was codified in statute. Renamed Massachusetts Inclusive Postsecondary Education Initiative (MAIPSE)

MAIPSE Regulations approved!

MA State Legislators pass Chapter 182 of the Acts of 2008 Inclusive Concurrent Enrollment Partnership Programs for Students with Disabilities to offer inclusive concurrent enrollment opportunities to students identified with intellectual disability.

Chapter 68 of the Acts of 2011 introduces several new features to the Inclusive Concurrent Enrollment line item to address sustainability, best practices, parent engagement, employment and tuition waivers.

More than 2,500 students had participated in MAICEI since 2007!

Implementation of MAIPSE continued with guidance and regulations development. All Massachusetts public colleges and universities are required to establish guidelines to support eligible students.

CREATING HIGHER ED OPPORTUNITIES FOR STUDENTS WITH ID, ASD, AND OTHER DD

Provisions remove barriers precluding persons with ID and autism from participating in state colleges and universities.

Provisions ensure state colleges and universities establish guidelines governing selection of individuals with ID and autism as well as course selection.

First-of-its-kind law improves college access for students with autism, intellectual disabilities

Action Steps for Families & Educators

Transition Planning Gap

Common challenges:

- Low expectations
- Lack of information
- Timing (too late / rushed planning)

Where families often feel stuck

Reframe transition as **future-building**,
not compliance

.

Concrete takeaways

- Keep it doable and empowering
- Starting the Postsecondary Conversation Early
- When to introduce IPSE in transition planning
- Questions families can ask IEP teams
- Reframing goals from “can they?” to “what supports?”

RESOURCES

A national directory of college and university programs enrolling students with intellectual disability.

Searchable by:

- State
- Program features
- Disability
- Type of school

The screenshot shows the Think College website interface. At the top, there is a navigation bar with links for HOME, STUDENTS & FAMILIES (highlighted with a mouse cursor), PROJECTS, TA & TRAINING, RESOURCES, and ABOUT. Below the navigation bar, there is a search bar and a 'Donate' button. The main content area is titled 'College Search' and includes a brief description of the directory, a 'RECENTLY ADDED' list of colleges, a search form, and a map of the United States showing the number of programs in each state. The map uses a color scale from light blue (0 programs) to dark blue (10+ programs).

Students

I want to hear from other students.

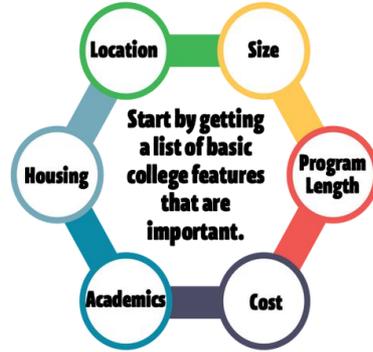

I'm a student and I want to know more about advocacy.

Conducting a college search is a daunting task for every family and every potential college student. All students need to think about factors such as the size of the college, its location, and whether or not to live on campus or at home (see Figure 1).

For students with intellectual disability (ID), there are some additional aspects to consider beyond the details you can learn in Think College Search. This resource provides questions, suggested by parents and students who have been through the college search process.

These questions may be answered by closely reviewing the college program websites, attending an Open House, or calling the program director. A great place to identify possible options is Think College Search, a searchable database of college programs on the Think College website. There you will find basic information on over 270 college programs for students with intellectual disability. Learn more about it on page 2.

Figure 1. Sample College Features

This guide shares questions about important aspects of the college program, and are offered to help students and families learn as much as they can about program operations so they can make an informed choice about which college is best for them. Several questions are suggested in each of the ten areas below.

Admission	Fees, Tuition, & Financial Aid	Inclusion with the Campus Community	Academics	Housing

COUNCIL

Inclusive Higher Education Accreditation

We asked 5 former college students what you (and your family) should think about as you start your own college journey. Meet the students here, and keep reading to find out what they wanted you to know!

MEET THE STUDENTS

MADISON

Madison is working towards a Para-Professional Educator Certificate. She loves working in the classroom with 2- to 3-year-old children. Every semester, she takes one art class for fun. Madison enjoys horseback riding and walking her dog. Her advice is to "Just be you!"

KAETHE

Kaethe is finishing up her Certificate of Completion. She writes her own inspirational messages published on her social media pages. She wants to be a motivational speaker and advocate for people with disabilities.

MARIA

Maria earned her Para-Professional Educator Certificate. She is continuing to take courses in college, and is passionate about working with children in an after-school program. She has been living in her own apartment and is engaged to be married.

GEORGE

George is funny and insightful. He grew up in a small town and will eventually live in a bigger community where he can get around on his own. He is working towards a degree in Communication Studies. In his free time, George enjoys riding his three-wheeled bike.

SANTI

Santi is working towards a degree in Studies in Education. He writes articles for the college newspaper. Santi teaches children during the summer how to play soccer, and he assists the men's soccer team at the college.

STUDENT COLLEGE RESOURCE GUIDE

Thinking about college can be overwhelming. There are so many decisions and so many options. It can feel like the biggest decision of your life. But it's really just a lot of little choices. This student guide pulls together some information that we hope will help. Remember, you have to do what's right for you. Trust yourself!
